HOW WE COLLECT YOUR INFORMATION AND USE COOKIES

We or our service providers and other companies we work with may deploy and use cookies, web beacons, local shared objects and other tracking technologies for various purposes, such as fraud prevention and monitoring our advertising and marketing campaign performance. Some of these tracking tools may detect characteristics or settings of the specific device you use to access our online Services.

To help provide our Services, enhance your experience and collect information about mobile activity, we may place small data files on your computer or mobile device. These data files may be in the form of cookies, pixel tags, local shared objects or other similar technologies.

Cookies and similar technologies enable us to personalize our application and Services for you. These technologies may allow us to store and manage your preferences and settings, measure and analyze how you use our Website and the effectiveness of our communications, offer services and help us improve our services and security.

- “Cookies” are small amounts of data a website can send to a visitor’s web browser. They are often stored on the device you are using to help track your areas of interest. Cookies may also enable us or our service providers and other companies we work with to relate your use of our online Services over time to customize your experience. Most web browsers allow you to adjust your browser settings to decline or delete cookies, but doing so may degrade your experience with our online Services.
- Clear GIFs, pixel tags or web beacons—which are typically one-pixel, transparent images located on a webpage or in an email or other message—or similar technologies may be used on our Website and in some of our digital communications, such as email or other marketing messages. They may also be used when you are served advertisements or you otherwise interact with advertisements outside of our online Services. These are principally used to help recognize users, assess traffic patterns and measure Website or campaign engagement.
- Local shared objects, sometimes referred to as “flash cookies,” may be stored on your hard drive using a media player or other software installed on your device. Local shared objects are similar to cookies in terms of their operation but may not be managed in your browser in the same way. For more information on managing local shared objects, click here: <https://helpx.adobe.com/flash-player/kb/disable-third-party-local-shared.html>.
- Most browsers provide you with the ability to block, delete or disable these technologies. If you choose to reject cookies or similar technologies, some Services may not be available or some functionality may be limited or unavailable. Please review your mobile device help pages for assistance with changing your settings.
- Your IP Address is a number that is automatically assigned to the device that you are using by your Internet Service Provider (ISP). An IP Address is identified and logged automatically in our server log files whenever you visit our Website, along with the time of the visit and the page(s) that were visited. We use IP Addresses for purposes such as calculating Website usage levels, helping diagnose server problems, to personalize/tailor your experience while engaging with us online and offline, for compliance and security purposes, for advertising, and administering the Website.
